Summary of reasons for decision:

The Blu-ray disc presents both a theatrical and an "unrated" version of a feature that was classified by the Classification Office in 35mm film format (OFLC 1100172). The film version was classified R13 with the descriptive note, "Contains violence, offensive language and sexual references." That decision was registered on 4 March 2011. The 'unrated' version of the feature on the Blu-ray disc contains approximately five minutes of additional material.

The Blu-ray disc also contains numerous additional components including featurettes about different aspects of the film's production process, interviews, photos, storyboards, and theatrical trailers. Neither the additional components nor the extra five minutes in the feature's unrated version provide grounds to change the original classification or descriptive note.
